Coding and Robotics STEM After School Class

In our After School STEM classes for grades 1-5, students participate in interactive learning experiences focused on engineering, coding, robotics, and other STEM projects. They explore architecture and scientific principles through hands-on activities, developing skills in programming and problem-solving. Students enjoy collaborative learning while having fun and engaging in these activities.

Where: Laureate Park Elementary
Time: 2:15pm – 3:15pm
**Dates:** Classes held at the school every Wednesday
New Classes monthly thru May 2026
